

Design Intern, Immersive & 3D Tata Consultancy Services (TCS) · Mumbai, India		Jun 2022 – Aug 2022
– Prototyped immersive virtual environments, studying interaction patterns to optimise spatial usability, task workflows, and real-time 3D asset pipelines. – Produced high-fidelity 3D concepts in Blender informed by user research, and created interactive educational 3D visuals for a voice-based AI assistant. – Presented interactive design frameworks and VR prototypes to senior stakeholders for engineering roadmaps.		
3D Artist & Visual Designer YoZu · Mumbai, India		Dec 2020 – Jan 2022
– Designed user interfaces and high-fidelity visuals across 25+ interactive screens for an educational application. – Designed and optimised low-poly 3D models for Android devices, balancing visual fidelity against real-time performance constraints in a Unity production pipeline. – Personally modelled 20 high-fidelity assets in a single week, contributing to a team delivery of 100+ production-ready models. – Streamlined asset handoff with front-end and Unity engineering teams; mentored junior digital artists within agile sprints.		
SELECTED PROJECTS		
City: Beneath the Surface DATA VISUALISATION · INSTALLATION · THREE.JS – Interactive public installation revealing Dublin's hidden urban workforce: municipal datasets synthesised into a physics-based bubble hierarchy over city maps, real-time 3D in-browser. – Inclusive design: legible colour contrast plus an AR companion prototype with image-to-voice recognition for visually impaired users. – Exhibited to 500+ attendees with live behavioural observation.		Hiro: Task-Starting Assistant PRODUCT DESIGN · UX · BEHAVIOURAL DESIGN – Productivity system reducing task-initiation friction, shifting UX from rigid discipline to energy-aware micro-step workflows. – 27 deep-dive research interviews isolating avoidance behaviours and procrastination triggers; 4-subsystem architecture rooted in Temporal Motivation Theory.
DUB Transit UX DESIGN · INFORMATION DESIGN · MOBILITY – Investigated commuter pain points across Dublin's public transit via contextual inquiry and field interviews. – Real-time mobile interface with glanceable route cards in Figma; validated with 32 participants, achieving 100% adoption interest and surfacing a critical night-use dark mode requirement.		Portfolio Website (harigovind.ie) INTERACTIVE WEB · UX · AI-ASSISTED WORKFLOW – Responsive portfolio designed and built end-to-end: IA and interaction patterns in Figma, AI-assisted implementation, cross-device QA on iOS, Android, iPad, and desktop.
3D Typography: A–Z & 0–9 PROCEDURAL SYSTEMS · GEOMETRY NODES · SIMULATION – Ongoing letterform series in Blender, each character a distinct technical system: particle hair, procedural marble, flame rigs, bubble and grass simulations, rope physics. Typography as sculptural image-making.		Revved Up: 3D Cars in Motion HARD-SURFACE MODELLING · LIGHTING · SKETCHFAB – Scratch-modelled first-generation Honda Civic and SB1 Civic in Blender with photorealistic materials and cinematic lighting; interactive Sketchfab models (1.6k+ views), motion renders on Vimeo.
Theyyam Threads APPAREL GRAPHICS · CULTURAL RESEARCH – T-shirt graphics series translating the ritual art form of Theyyam from Kerala into contemporary apparel, balancing cultural fidelity with wearable graphic clarity.		ArtBox · Aujus BRAND IDENTITY · PACKAGING · WAYFINDING – ArtBox: identity, packaging, and unboxing experience for an art-supplies concept, treated as a single designed journey. – Aujus: wayfinding and service system unifying signage, information hierarchy, and environmental graphics.
EDUCATION		
MA Creative Arts, Visual Communication TU Dublin, Ireland · EQF Level 7 Research methodologies and design for care and urban systems. Graduation project: data visualisation of essential urban workers and city infrastructure.	2024 – 2025	B.Des Communication Design Indian Institute of Technology Bombay · GPA 8.04 Human-centred design, visual storytelling, interactive media, and immersive digital experiences. Graduation project: VR experience in Unity.
ADDITIONAL EXPERIENCE		
Aircraft Appearance Crew · Sky Handling Partner, Dublin	Jan 2026 – Present	
Food & Beverage Associate · St Helen's Hotel, Dublin	Oct 2025 – Jan 2026
